PROFILE

Self-taught software engineer with strong passion for web and mobile development. Currently learning full-stack development using the MERN stack and building personal projects to strengthen my skills. Eager to gain hands-on experience through an internship where i can contribute, learn from experienced developers, and grow in a collaborative environment.

SIDE PROJECTS

Assembly Endgame with winning and loss reactions

React.js, Tailwind CSS, HTML/CSS

A strategy-based game with win/lose mechanics and interactive user reactions. Built with React and styled using Tailwind for a responsive UI.

Tenzies: Roll, Match, and Freeze the Dice!

React.js, Tailwind CSS, HTML/CSS

A dice-matching game where players roll, match, and freeze dice until all values are the same. Features game logic and user state management using React hooks.

EDUCATION

Diploma in Information Technology | Jamhuriya University (JUST)

2019-2020

Completed a comprehensive program focused on computer systems, networking, software development, and IT fundamentals. Gained hands-on experience with practical projects and foundational knowledge in programming and database management.

High School | Ahmed Gurei High School

2015-2019

Successfully completed secondary education with a strong focus on mathematics and science. Developed critical thinking, problem-solving, and teamwork skills.
